

TRO Series - B

Commercial Tap and Well Water Reverse Osmosis Systems

Rugged, economical and compact commercial reverse osmosis systems purify water for applications for feedwater up to 1500 ppm TDS, and available in sizes from 350 gallons/day up to 324,000 gpd as standard products. Larger sizes are available upon request.

SERIES B: TRO 1800B, - TRO 20,000B: 1800-20,000 GALLONS/DAY SYSTEMS

<u>Model</u>	<u>60 Hz Output Gallons/Day</u>	<u>60 Hz Output Metric Tons per Day</u>	<u>R/O Elements</u>	<u>Recovery</u>	<u>Connections Inlet/Perm./Conc.</u>	<u>Dimensions (H x W x D)</u>	<u>Weight</u>
TRO 1800B	1800	6.82	1	60%	3/4", 3/8", 3/4"	50 x 24 x 18	275 lb.
TRO 3600B	3600	13.6	2	70%	1", 3/4", 3/4"	60 x 30 x 22	350 lb.
TRO 5000B	5000	18.9	3	70%	1", 3/4", 3/4"	60 x 30 x 22	425 lb.
TRO 6500B	6500	24.6	4	70%	1", 3/4", 3/4"	60 x 30 x 22	550 lb.
TRO 8000B	8000	30.3	5	70%	1", 3/4", 3/4"	60 x 36 x 36	850 lb.
TRO 10,000B	10,000	37.9	6	70%	1", 3/4", 3/4"	60 x 36 x 36	1950 lb.
TRO 14,500B	14,500	54.9	10	70%	1½", 3/4", 3/4"	66 x 110 x 44	2050 lb.
TRO 20,000B	20,000	75.6	14	70%	1½", 1½", 1"	66 x 110 x 44	2250 lb.

STANDARD EQUIPMENT:

- TFC Membranes
- FRP Pressure Vessels
- High Pressure Pump
- TEFC Motor
- 5 Micron Prefilter
- Carbon Prefilter
- Operating Pressure up to 250 psi
- Heavy Duty Corrosion Resistant Frames

- Polypropylene Filter Housing
- Digital Salinity Monitor
- Permeate & Concentrate Flowmeter
- Flow Control Valve
- Low Pressure Pump Protection
- 3 Pressure Gauges

OPTIONAL EQUIPMENT:

- pH Meter
- Water Pressure Set
- Level Controls for Tank
- Softener
- Mixed Media Filter
- 20 or 50 Micron Prefilter
- Automatic Flush
- Chemical Dosing
- ORP Monitor/Controller
- Antiscalant System
- Chlorination System
- UV Sterilizer
- Ozone System
- PLC Control
- Concentrate Recycle
- Booster Pump
- Membrane Cleaning System
